

Lab Plan 2 (Web Engineering SEC-4082)

Tasks	Basic HTML Practical Lab No.2
1	<p>Create an HTML document to display the following statements</p> <p>My HTML Course</p> <p><i>HTML stands for Hypertext markup language</i></p> <p>H₂O and carbon dioxide CO₂ and Glucose C₆H₁₂O₆</p> <p>$X^3+2y^4*(2-3)^3$</p>
2	<p>Create an HTML document to display the following statements</p> <p>This text is bold</p> <p><i>This is an italic text</i></p> <p><u>This text is underlined</u></p> <p>This is strong text</p> <p><i>This is emphasized (important) text</i></p> <p>This is small sized text</p> <p>This is big(large) text</p> <p>This shows deleted text</p> <p><u>This is inserted text</u></p> <p>Sub-scripted text</p> <p>Super-scripted text</p> <p>This text is marked(highlighted)</p>
3	<p>Create your own static web page in HTML using <Div> tag</p> <div style="background-color: orange; padding: 10px; margin-bottom: 10px;"> <p>Content1 of div tag in Html</p> <p>Div tag is used for group many HTML tag like table, list, paragraph in web page. Mostly div tag used in empty web page to partition or make section for content or HTML tags.</p> </div> <div style="background-color: yellow; padding: 10px;"> <p>Content2 of div tag in Html</p> <p>To make section of required data or content multiple div tags are used in container. Example: header, footer, navigation bar, table, images, texts etc.</p> <ul style="list-style-type: none"> The first div is orange in color, and the second div is a yellow color. Div contains a header tag and paragraph together. Two div tags divide container with different content. </div>
4	<p>Create your own static web page in HTML without <Div> tag</p>

Lab Plan 2 (Web Engineering SEC-4082)

	<div style="background-color: yellow; padding: 5px;">Content1 of div tag in Html</div> <div style="background-color: orange; padding: 5px;">Div tag is used for a group many HTML tags like table, list, a paragraph on a web page. Mostly div tag used in empty web page to partition or make section for content or HTML tags.</div> <div style="background-color: yellow; padding: 5px;">Content2 of div tag in Html</div> <div style="background-color: orange; padding: 5px;">To make section of required data or content multiple div tags are used in container. Example: header, footer, navigation bar, table, images, texts etc.</div> <ul style="list-style-type: none"> • The above example is without using a div tag in HTML. The header and their paragraph are in a different section. • The header is yellow, and the paragraph is in orange color. All headers and their content paragraphs have different sizes.
5	Create a HTML page that contains three (3) div elements one another. Each of the div has a height of 250px, a width of 200px and a border of 1px. Each div has a different background color, in which the background color for column 1 is light blue, column 2 is light green, and column 3 is pink. Also, place the text in each of the div as h1. Column 1 Column 2 and Column 3
6	<p>Create your own static web page in HTML using <Div> tag</p> <div style="border: 1px solid black; padding: 10px; margin: 10px 0;"> <div style="display: flex; justify-content: space-between; align-items: flex-start;"> <div style="width: 60%;"> <p>This is the title</p> <p>Lorem ipsum dolor sit amet, quodsi saperet vocibus cum ei, id doctus labores constituto eos, cu accusamus disputando mediocritatem ius. Vis in sensibus interesset, ut aperiam vulputate sed. Pri populo noster et, eirmod melius</p> </div> <div style="width: 35%; border: 1px solid black; height: 100px; margin-left: 10px;"></div> </div> </div> <p>In a Div, One paragraph with heading 1 left side and one div inside the div right side as same look like and inside div color green with border width 1 pixel.</p>
7	Create your own static web page in HTML <Div> tag and fill brown color

Lab Plan 2 (Web Engineering SEC-4082)

	 <p>Create two div, one for right side and second for left side which occupied space 40% and 60%</p>
8	<p>Create an HTML document to display the following statements</p> <p>Ammonia's chemical formula is: NH_3</p> <p>Ethanol's chemical formula is: $\text{C}_2\text{H}_5\text{O}$</p> <p>$x^2+y^2=r^2$</p> <p>$(a+b)^2=a^2+b^2+2ab$</p> <p>5th</p>
9	<p>Create an HTML document to display the following statements</p> <p>Formatting Text</p> <p>font size -7 : HTML</p> <p>font size-3 : HTML</p> <p>font color-"red" : HTML</p> <p>font size-6 and color -red : HTML</p> <p>bold,underline and italic : <i><u>Text</u></i></p> <p>Bold :HTML</p> <p>Strong :HTML</p> <p>Underline :<u>HTML</u></p> <p>Ins :<u>HTML</u></p> <p>Italic :<i>HTML</i></p> <p>Emphasis :<i>HTML</i></p> <p>Strike :HTML</p> <p>Del :HTML</p> <p>Highlighting a text : HTML</p>
10	<p>Create your own static web page in HTML using <Div> tag</p>

Lab Plan 2 (Web Engineering SEC-4082)

	<div><div></div><div>This is the title Lorem ipsum dolor sit amet, quodsi saperet vocibus cum ei, id doctus labores constituto eos, cu accusamus disputando mediocritatem ius. Vis in sensibus interesset, ut aperiam vulputate sed. Pri populo noster et, eirmod melius</div></div> <ul style="list-style-type: none">• The first div is orange in color, with one paragraph as side by side.
